## KNOW US..

- Reconnecting with our spirituality through the deeper appreciation of our culture
- Understanding Islam not just as a religion but as a way of life, a functional system of principles, guidelines and instructions, for individuals and societies, in the private and public sphere (Islamic banking; Zakat; gender equality; labor; environment; psychology, etc)
- Re-introducing Islam to both Muslims and non-Muslims, with a different lens, free from the limitations of the education imposed on us
- Delivering the universal message of Islam and humanity and creations.
